ENGINEERING PORTFOLIO / RESUME DRAFT

V Anil Kumar

Mechatronics Engineering Student

Bridging Mechanical Engineering, Electronics and Intelligent Automation.

CONTACT [replace email] · [add LinkedIn] · [add GitHub] · [add location]

PROFILE

Mechatronics Engineering student passionate about robotics, automation, mechanical systems, electronics and programming. Interested in connecting mechanisms, embedded electronics and software to explore innovative engineering solutions.

EDUCATION

Mechatronics Engineering

CURRENT FIELD OF STUDY

Institution: [Add your college or university] Expected graduation: [Add year]

TECHNICAL SKILLS

Mechanical Design | CAD Modelling | Robotics | Arduino | Embedded Systems | Electronics | Python | C Programming | Automation | 3D Printing

PROJECTS

[Add a verified project title]

[Describe your contribution, the problem addressed, the result and the technologies actually used.]

[Add another project, workshop or technical experience]

[Add dates, relevant details and your personal contribution. Remove this placeholder when ready.]

CERTIFICATIONS, TRAINING & ACHIEVEMENTS

[Add certification or workshop] · [Provider] · [Year]

[Add training, competition, recognition or achievement with verified details.]

EDITABLE STARTER — COMPLETE AND VERIFY ALL BRACKETED DETAILS BEFORE SHARING.

This draft contains no assumed institution, contact, certificate, award, date or project claim.
